

# USM

USM takes its initials from its founder, Ulrich Schärer, and Münsingen, the Swiss village just outside of Bern where he was born. Since its creation in 1885 and without interruption, the company has stayed rooted in Münsingen.

Originally a family-run metal factory housed in a traditional building, USM was steered into the modern world in the early 1960's by Paul Schärer Jr., grandson of the founder and father of the current leader.
